

## **BORG EGNAZIA IS READY TO REOPEN!**

***On May 23<sup>rd</sup> the icon of Puglian hospitality reopens its doors,  
restoring the idyllic summer holiday in perfect Italian style  
and bringing the first signs of optimism and hope for safe summer travel***

*Savelletri di Fasano, May 20<sup>th</sup>, 2020* – While Borgo Egnazia had to be closed over the last few months, the team has not stopped and, after weeks of working to **ensure guests' privacy and security**, the property is ready to reopen its **Villas** and **Casette** on May 23<sup>rd</sup>. Within a few weeks the whole property will be fully operational.

A great effort has been made to get back on track as soon as possible, as owner **Aldo Melpignano** comments, "We want to be among the first to restart to show optimism and energy. We owe to our team and our Country, which depends so much on tourism, and also to those guests who are ready to travel after a long period of quarantine: Puglia is open and waiting for you."

Borgo Egnazia is restarting from the idea of the classic Italian "villeggiatura", a place to stay for an extended period of time, where guests can find their own personal moments of freedom, from smart working to a break under the olive trees, a hike or a long bike ride to the sea through the **Puglian countryside**.

Borgo Egnazia has transformed its **Casette** and **Ville** - the first accommodation types to reopen - into "homes away from home": ideal solutions for long stays, ensuring privacy and safety. While spending time with loved ones, it will be possible to enjoy precious moments of daily life in complete tranquillity, in the total privacy indoor and outdoor in the private patios and gardens.

After so much time spent at home and without the opportunity to explore, a stay at Borgo Egnazia promises an escape that starts with individual **wellbeing**, the best of which is found in nature and outdoor spaces.

From social distancing, guaranteed by the spread of the property across **16 hectares**, to the safety of strict sanitation procedures (using new hydrogen peroxide equipment), to the constant presence of an **on-site doctor** available 24/7, and a fully-fitted private clinic including oxygen supply, the remarkable team at Borgo Egnazia is ready, prepared and motivated to welcome guests in safety and serenity, but with the same spirit as ever.

Today more than ever, Italy is not just our home, it is also your holiday home.

**BORG EGNAZIA** - In less than 10 years, Borgo Egnazia has gained a unique position as a high-end travel destination, becoming an icon of Puglian hospitality worldwide. Since 2010 it has been working on a different concept of hospitality and

*wellbeing, based on local and authentic experiences. The main goal has always been delivering “happiness” to guests, focusing on tailor-made and meaningful experiences strongly related to local traditions but innovative at the same time.*
